Interview Summary A

Sir:

Applicants wish to thank Examiner Hannett and Supervisor Thai Tran for the courtesies extended to the undersigned during the telephonic interview of July 19, 2005. The Office reiterated its position that col. 2 of Ramasubramanian provides motivational rationale for combining the reference teachings where both references concern communicating video and it would be obvious to include the snapshot function of Ramasubramanian in Mottur without identification of further evidence to support the motivational rationale. The undersigned stated that the differences of the references regarding controlling the web cam of Mottur and accessing previously stored video from a file of Ramasubramanian illustrate the inappropriateness of the combination.

2

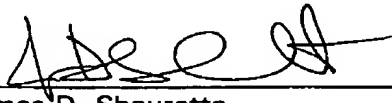

The Office reiterated its position set forth in the Action with respect to claim 23 that different slots may be broadly considered to be different channels.

The undersigned and the Office discussed the limitations of claim 28 indicated to be allowable. During the discussions, the Office favorably received limitations of acquiring of a photograph during the original generation of the video and indicated such limitations may be allowed pending further and/or updated search. Additional points discussed are provided in the response which accompanies this interview summary.

The Examiner is requested to phone the undersigned if the Examiner believes such would facilitate prosecution of the present application. The undersigned is available for telephone consultation at any time during normal business hours (Pacific Time Zone).

Respectfully submitted,
Pere Obrador et al.
